

3.14 Living

With a totally new concept, Mexico Alive brings 3:14 Living to Nuevo Vallarta. In a multi-level project, 85 condominiums with one, two and three bedrooms will offer urban-style loft living in a lively commercial center to the single professional and the young married-without-children. 3:14 Living is located an easy three-block walk from the beach, one of the best along the bay. With a mountain view, the complex will include offices, a business center, gymnasium, health club, spa, swimming pool, restaurant and pub, and, finally, a water mirror with four Jacuzzis, each allowing eight people.

Picture coming home after a hard day at the office, parking the car in the secure parking, stopping to pick up the mail, heading upstairs, showering and changing before dropping by the casual restaurant for a bite to eat. Then you can visit with friends in the pub, maybe playing some backgammon, before heading back upstairs. It's no more complicated than that at 3:14 Living.
