

Edificio Las Palmas

Bucerias Nayarit

Reduced Price: ~~\$675,000~~ to \$575,000 US Dlls.

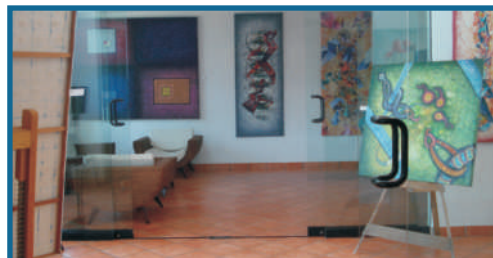

Features:

Neighborhood: Bucerias
Construction: 244 m2
Bathrooms: 2
Land Size: 452 m2
Built in: 2000

Greek Column styled building in the booming area of Bucerias with great commercial exposure on the main road to DeCameron. The property is 452 m2 with construction on a two-storied building with 244 m2.

Perfect set up for a gallery, attorney/notario office, Real Estate office or explore your options. Currently it is an Art Gallery. The property is totally walled and has beautiful functional gates in the front of Black Metal. Walk into a large, Cantera exterior entry, then up a couple steps to a glass fronted structure to this awesome, one of a kind building.

The windows are HUGE and operational. There are glass sliding doors to equal sized showrooms or office spaces. On the other side of a grand hall is another enormous room that can be a showroom and it is set up to easily divide in two sections. There are two separate glass entry doors into this area. As you can tell this is a very symmetrical pleasing building.
